

SIM2 DOMINO DTVs

A brief introduction to the DOMINO DTVs: The SIM2 short-throw laser LCD projector offers 2400 Ansi lumens and a UHD (4K2K) 3840 x 2160 resolution. The manufacturer specifies a laser service life of 25,000 hours, which is over 17.1 years if enjoyed for four hours a day. With a projection ratio of just 0.25:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 50 cm away from the screen. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Playback of 1080P and 4K is also no problem for the projector. At just 27 decibels, the device is one of the quieter projectors. It was launched in 2022 and is no longer offered by the manufacturer SIM2.

Brief Introduction Beta 2.5
